

Athletix™ Cleaner Spray

An alcohol-free product designed to effectively clean and deodorize exercise equipment surfaces.

Perspiration and other contaminants lingering on the surfaces of gym and fitness equipment can lead to mildew and unpleasant odors. Some cleaners currently used in facilities contain harsh chemicals that might not be compatible with your facility's equipment, or your members. Athletix Cleaner Spray's chemistry is member-friendly and safe for repeated use on the equipment and surfaces found in your facility.

Developed for your facility in easy-to-use concentrate packets. Simply tear packet at the perforated line, pour contents into spray bottle, fill to the line with water, and you are ready to clean and deodorize. Removing grime and odors left behind on equipment improves the member experience, keeping your members safe and satisfied. Ideal for yoga mat cleaning. Can be used with the Contec® Floor Mop, part number ATFM0001.

Free of harsh chemical vapors, the Athletix Cleaner Spray is safe for patron use.

Instruction: Spray on a dry cloth to clean equipment prior to use.

Features	Benefits
Alcohol-free formulation	Safe for use on vinyl, leather, chrome, rubber, foam grips, painted surfaces, and electronic displays.
Patented nano-polymer technology	Leaves behind an invisible protective barrier on surfaces, keeping them clean longer and reducing odor-causing elements.
Gentle chemistry	Designed for repeated use on sports and fitness equipment; virtually odor-free formula; will not irritate the user's hand if it comes in contact with the concentrate.
Economical	Refillable bottle for multiple-use reduces the cost of cleaning equipment.
Easy-to-use refill packets	Snip, pour, and fill to the line for effective cleaning and deodorizing.

Just tear at the perforated line, pour in packet of concentrate, and fill to the 32 oz. line.
